Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

In the rural area that I live in, my wireless phone is the only way I can have a phone. I only use this phone for emergencies. If the cost is raised on me I will not be able to afford a phone at all, that will leave me with no way to get ahold of my job or my family or any emergency services for me or my daughter. Please find another way without raising our rates.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

J. Yvette Daniel
